Before you file

- Income spent in Mauritius through foreign cards or accounts is not treated as remitted; tax residence arises after 183 days in a tax year.
- The visa can be converted from within Mauritius to an Investor, Self-Employed or Retired Non-Citizen permit without leaving the country. We plan the sequence at the outset so the time on the Premium Visa is not wasted.

We prepare the file, and stay with it after issuance.

Send us the documents you already have and we will tell you what is missing, what needs certifying or translating, and in what order the steps should run. Nothing is filed until the file is complete.

Eligibility criteria and documentary requirements are set by the Economic Development Board and the Passport and Immigration Office and are revised with each National Budget. This checklist follows the EDB guidelines as revised after the 2026-27 Budget and was last checked in September 2026. It is a working guide, not legal advice, and the authorities may request further documents in any individual case. We confirm the current requirements before any application is prepared. start.mu is a service of Intrasia Corporate Services Limited.
