☐ Mauritian bank statements for the permit period Showing the transfers from abroad of at least USD 24,000 a year.	—	●

Before you file

- The passport should be valid for the period of the permit applied for. Any document not in English or French is accompanied by a certified or sworn translation by a competent authority.
- Medical certificate: tests no older than six months at submission. HIV, Hepatitis B surface antigen and the chest X-ray (signed by a radiologist) are done in Mauritius at a clinic registered with the Ministry of Health; the remaining tests may be done abroad. A doctor in Mauritius issues the certificate after examination. Children under 12 need a certificate of clinical examination only.
- Sequence: the application fee is paid at submission. Approval in principle follows. The medical examination is then completed in Mauritius, the permit fee is paid, and the applicant attends the EDB in person with the originals for the permit to be issued.
- The holder may not take employment on this permit, but may invest in a business provided they are not employed by it and draw no salary from it.
- After five years on the permit, with aggregate transfers of at least USD 200,000 over those five years, the holder may apply for a 20-year Permanent Residence Permit. See the Permanent Residence checklist.

We prepare the file, and stay with it after issuance.

Send us the documents you already have and we will tell you what is missing, what needs certifying or translating, and in what order the steps should run. Nothing is filed until the file is complete.

Eligibility criteria and documentary requirements are set by the Economic Development Board and the Passport and Immigration Office and are revised with each National Budget. This checklist follows the EDB guidelines as revised after the 2026-27 Budget and was last checked in September 2026. It is a working guide, not legal advice, and the authorities may request further documents in any individual case. We confirm the current requirements before any application is prepared. start.mu is a service of Intrasia Corporate Services Limited.
