

MULTIPLE-ENTRY VISA, PROVISIONAL CHECKLIST

Golden Visa

A multiple-entry visa for high-net-worth individuals, with linked dependent visas for the spouse and dependent children. A holder who invests USD 1 million in Mauritius within twelve months of issue becomes eligible to apply for a twenty-year Permanent Residence Permit.

The Golden Visa was approved by Cabinet in April 2026 and legislated through the 2026-27 Budget measures, but the EDB's application guidelines have not yet been published. This checklist sets out the file we prepare now so that an application can be lodged the week the scheme opens. It will be replaced with the EDB's requirements when they are issued.

Investment undertaking USD 1 million within twelve months of issue, confirmed by a written undertaking at application	Qualifying investment Any business activity other than residential property under the EDB schemes; fintech, AI, biotechnology, renewable energy and global treasury highlighted	Initial permit Up to two years, multiple entry, renewable
Processing target Five working days, as announced	Dependents Spouse and dependent children, each under a linked dependent visa	Screening EDB with the Financial Crimes Commission, the FIU, the FSC, the Bank of Mauritius and the PIO

Before you file

- Eligibility is not the same as approval. The application is assessed on its merits, and completing the investment does not convert the visa into permanent residence automatically.
- Source of funds and source of wealth will be examined properly by the agencies involved. We prepare the file to the standard those agencies apply, drawing on the group's compliance practice.
- We will confirm the operative requirements, the application form and the fee schedule with the EDB before accepting any instruction.

We prepare the file, and stay with it after issuance.

Send us the documents you already have and we will tell you what is missing, what needs certifying or translating, and in what order the steps should run. Nothing is filed until the file is complete.

Eligibility criteria and documentary requirements are set by the Economic Development Board and the Passport and Immigration Office and are revised with each National Budget. This checklist follows the EDB guidelines as revised after the 2026-27 Budget and was last checked in September 2026. It is a working guide, not legal advice, and the authorities may request further documents in any individual case. We confirm the current requirements before any application is prepared. start.mu is a service of Intrasia Corporate Services Limited.
